

specifications

NetKey faceplates shall be available in 1, 2, 3, 4, and 6-port single gang for vertical applications and 2-port and 4-port single gang for horizontal applications. Faceplates shall accept all NetKey modules for UTP, STP, fiber-optic, and audio/video applications. Faceplates shall be available in a flush or sloped design, and available with or without labels. Sloped design shall increase wall depth to improve the bend radius control.

technical information

Mounting options:	Screw holes with retention tabs, spaced for single gang openings; compatible with wall board adapter
Packaging:	Supplied with two 1" long, #6 – 32 slotted head screws; select styles include labels and label covers; faceplates without labels include matching mounting screws to match the faceplate; faceplates packaged one per bag, ten per box.

key features and benefits

Modular	Accepts all NetKey modules which snap in and out for easy moves, adds, and changes
Identification	Choice of adhesive labeling or dedicated label pocket for easy identification
Various port densities	Provides design flexibility
Sloped design	Allows proper bend radius control

applications

NetKey faceplates mount to any standard size single gang junction box and can also mount to a wall board adapter or raceway mounting brackets. When using NetKey faceplates with surface raceway, color matching is guaranteed. NetKey faceplates with label and label cover offer a quick and easy way to identify the ports. Mounting screw colors match the faceplate for a clean, consistent look.

Dedicated sloped faceplates provide additional room for bend radius control to help comply with standards.

Vertical Sloped Faceplates with Labels Slots

4-port: NK4VSFIW

Vertical Faceplates with Labels
