## applications

NetKey faceplates mount to any standard size single gang junction box and can also mount to a wall board adapter or raceway mounting brackets. When using NetKey faceplates with surface raceway, color matching is guaranteed. NetKey faceplates with label and label cover offer a quick and easy way to identify the ports. Mounting screw colors match the faceplate for a clean, consistent look.

Dedicated sloped faceplates provide additional room for bend radius control to help comply with standards.
