

# Mini-Com® All Metal Shielded Modular Patch Panels

## SPECIFICATIONS

All metal modular patch panels shall be made of stainless steel and mount to standard racks and cabinets. All metal patch panels shall accept all Mini-Com Shielded Jack Modules for shielded installations. Patch panel write-on areas and optional adhesive labels shall identify each port and panel. Angled all metal modular patch panels shall be available in standard density 24- and 48-ports. Flat all metal modular patch panels shall be available in standard density 24- and 48-port. Flat design in 24 and 48-ports shall also be available with built-in strain relief bar with unique features to support individual cables.

## TECHNICAL INFORMATION

<b>Mounting option:</b>	Mounts to standard EIA 19" rack, or 23" rack when used with extender brackets (PEB1 or PEB2) or cabinet
<b>Packaging:</b>	Includes mounting screws (#12-24) and CPT tool for easy removal of Mini-Com Modules
<b>Material:</b>	Stainless steel

## KEY FEATURES AND BENEFITS

<b>Modular:</b>	Mini-Com Shielded Jack Modules snap in and out of all Mini-Com All Metal Shielded Modular Patch Panels for easy moves, adds, and changes
<b>Identification:</b>	Dedicated areas allow for port and panel identification with optional adhesive labels
<b>Built-in strain relief bar:</b>	Secures individual cables and provides proper cable support (CP24WSBLY and CP48WSBLY)
<b>Patented angled design:</b>	Allows cable to flow to each side of the rack and minimizes the need for horizontal cable managers; increase risk and closet density
<b>Strain relief bars (optional)</b>	Different styles available to help manage and route rear cables
<b>Angled filler panels (optional)</b>	Reserves space for future use and promotes proper airflow and cooling

## APPLICATIONS

Mini-Com All Metal Shielded Modular Patch Panels and Mini-Com Shielded Jack Modules are ideal for use in shielded cabling installations. Angled patch panels minimize the use of horizontal cable managers by allowing the cables to flow directly into vertical cable managers, thus increasing rack density. Selected flat patch panels include a built-in strain relief bar that offers integrated cable tie slots and a 1.46" surface to manage and support individual cables. Mini-Com Shielded Jack Modules bond to the panel when snapped into a Mini-Com All Metal Shielded Modular Patch Panel. When installing the patch panel on the rack, the use of patentpending thread-forming bonding screws bond the shielded panel to the rack. The combination of all-metal patch panels, shielded jack modules and accessories provide a properly grounded system.

### Angled Shielded Patch Panels

<b>24-port, 1 RU:</b>	CPA24*
<b>4 8-port, 2 RU:</b>	CPA48**

### Flat Shielded Patch Panels

<b>24-port, 1 RU:</b>	CP24*
<b>48-port, 2 RU:</b>	CP48*

### Flat Shielded Patch Panels with Strain Relief Bar

<b>24-port, 1 RU:</b>	CP24WSBLY
<b>48-port, 2 RU:</b>	CP48WSBLY
